# VOLODYMYR MOROZ

## JUNIOR FULL STACK DEVELOPER

With an engineering background and 10 years of managing my own online sales business, I've honed crucial skills such as attention to detail, goal setting, self-organization, communication, teamwork, leadership, and problem-solving. I completed a year-long full-stack development course with hands-on team projects. Continuous learning and additional programming courses, coupled with diverse work experiences, have equipped me with practical skills ready to be applied as a Full Stack Developer in your company.

## PROJECTS EXPERIENCE

### PORTFOLIO PROJECT

[GitHub](#) (link)

My portfolio showcases my web development skills, featuring project overviews, my resume, social profiles (including GitHub), and a comprehensive project showcase.
